RIVER VOYAGES

Europe, Egypt, Southeast Asia, India & the USA

THE WORLD OF VIKING

Wherever you choose to go—Europe, Southeast Asia, Egypt, the USA or beyond—Viking takes you to places you can only fully appreciate by river, and we take you there in comfort.

THE VIKING DIFFERENCE

Meaningful travel, tailored to you

AT VIKING, WE DO NOT TRY TO BE ALL THINGS TO ALL PEOPLE. Rather, our loyal guests continue to choose us every year because of our unique approach to river voyages that is defined as much by the things we include, as the things we leave out. Well-travelled and culturally curious, our guests are not interested in over-the-top ships or novel thrills, and neither are we. That's why we forgo things like black-tie dinners in favour of delivering meaningful experiences, tailored to you. Instead, we include more, where it matters most.

MORE VALUE

We don't underestimate the importance of good value, so we include more in your fare. All meals, wine and beer with lunch and dinner, a shore excursion in every port, Wi-Fi and gratuities are part of your Viking fare.

MORE CULTURE

With more time in port and more overnight stays, you'll have ample opportunities to soak up the fascinating culture of every destination you visit. On board, the cultural enrichment continues with educational lectures by destination experts, enough books to fill a library, live performances and meals bursting with flavour.

MORE CONNECTION

On your voyage, you will have ample opportunities to meet like-minded travellers. Our spaces have been designed to create a relaxed atmosphere where you can mingle with your fellow guests. By the end of your journey, our hope is that you will feel infinitely more connected—both to your destinations and new-found friends.

MORE MEANING

We are known as being for 'The Thinking Person'. We know that uncovering art, food, wine and culture of the places we visit is important to you, so we focus our energy on creating meaningful onboard and onshore experiences.

MORE STYLE

Our elegant Scandinavian-inspired interiors boast beautiful blonde wood, clean lines and art-covered walls.

VIKING LONGSHIPS ARE DESIGNED TO MEET THE HIGHEST ENVIRONMENTAL STANDARDS

TECHNOLOGY AND THE ENVIRONMENT

Reducing impact through design and technology

ALL VIKING LONGSHIPS are powered by true diesel-electric hybrid engines that meet stringent emission standards and reduce vibrations for a remarkably smooth ride. Key features of the ships' energy-efficient design include:

- **EFFICIENT USE OF SPACE.** On a ship, every bit of added weight results in extra fuel consumption. This is why we are careful to add only what is needed to our ships, prioritising optimal guest comfort and operational efficiency.
- **SHORE POWER.** Viking Longships utilise shore power where possible to reduce reliance on fuel while in port. This feature is already providing a reduction in CO2 emissions of up to 30% on some itinerary sections.
- **BATTERY PACKS.** Our newest Viking Longships have battery packs installed on board, which are expected to reduce our emissions by an additional 5%.
- **LED LIGHTING.** The lighting instruments on board Viking Longships are more energy-efficient LEDs, utilising low wattage and therefore lower heat output, lower power usage and a longer life.

- **SOLAR PANELS.** Located on the Sun Deck, these onboard solar panels help make Viking Longships the greenest vessels on the rivers of Europe.

Beyond the technical aspects of the ships' design, Viking Longships are also equipped with the following features to reduce environmental impact:

- **ADVANCED RECYCLING AND WASTE MANAGEMENT.** In addition to garbage and recycling separation facilities, Viking Longships are equipped with a "zero" discharge wastewater treatment system making them environmentally safe for any river they sail.
- **NOISE AND LIGHT REDUCTION.** Our vessels feature state-of-the-art insulation to ensure the overwater noise from on board is kept to a minimum, keeping local life undisturbed. On board lighting has also been designed to ensure no light pollution is disturbing local fish and wildlife.
- **BIODIVERSITY-SUPPORTING DOCKING LOCATIONS.** With more than 60 Viking-owned docking locations, specifically designed for Viking Longships, we provide an infrastructure that has close to zero impact on biodiversity.

LIFE ON THE RIVERS

THE RIVER VOYAGE EXPERIENCE IS A JOURNEY LIKE NO OTHER. Our elegant ships will gently carry you into some of the most incredible cities and picturesque towns, where you'll explore the food, landscapes, history and culture of these captivating regions.

RIVER LOCKS

River locks are an engineering marvel used since the 14th century in Europe. They are designed to allow vessels to overcome the height differences of rivers, enabling them to navigate the length of a river seamlessly. You will experience lock navigation on many European rivers, the Mississippi and the Nile. Europe has some of the highest locks in the world, with some up to 25 metres high. The Carrapatelo Lock measures 85 metres in length, 12 metres in width and stands at an incredible height of 75 metres. Some itineraries will only transit a few locks, while others will pass through up to 77 locks over 15 days.

As your ship approaches a lock, the forward door opens, allowing the ship to enter the lock compartment with the door closing behind. The lock compartment is then filled with water or emptied of water as your ship raises or lowers to the new river level height. The far door then opens, allowing your ship to continue on its way. The locks are carefully scheduled and each vessel will have an appointed time. Your captain will expertly navigate your ship through these locks, sometimes with only centimetres to spare on each side.

Lock transit is a fascinating experience, and your captain will invite you to the sundeck for some lock transits to experience this remarkable engineering marvel up close.

As you gather on the deck, you can't help but be in awe at the precision and engineering behind this centuries-old technology. The gentle hum of the machinery and the sight of the massive gates moving with smoothly add to the sense of

wonder. It's a unique experience that not only enhances your journey but also deepens your appreciation for the intricate systems that make river travel possible. Each lock transit is a reminder of the incredible human ingenuity that allows us to traverse these waterways, overcoming natural obstacles with ease.

HIGH AND LOW WATER LEVELS

From time to time, the rivers can experience unusually high or low water levels making navigation through locks or under bridges difficult.

Viking has two key advantages to handling water level disruptions. First, we own and operate our ships. We have a Switzerland-based nautical team and a network of local partners and authorities that focus on monitoring and adapting to current water levels so that you experience the least possible disruption.

Second, we strategically launch sister ships on the same itinerary, sailing in opposite directions. This tactic allows us to implement a ship swap in the event of low or high water. This is typically seamless as you and your luggage are transferred to an identical stateroom on a sister ship sailing in the opposite direction.

These advantages allow us to minimise the impact that water levels can have on an itinerary, meaning you can focus on enjoying yourself, rather than worrying about potential changes or cancellations.

DOUBLE DOCKING

Viking owns many dock locations along the rivers, and we strive to arrange the most convenient docking available. On occasion, due to limited space or local regulations, ships may be required to dock alongside each other. During this time the view from your stateroom may be impeded temporarily and you may need to pass through another ship (or the other ship's guests may pass through yours) to embark or disembark.

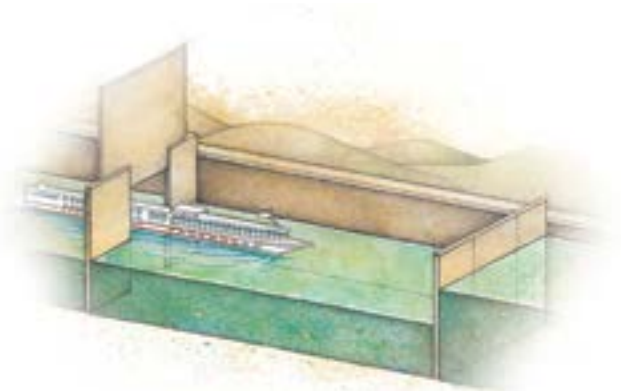

To cross from one ship to another you may simply walk right through, or there could be a number of different decks, this depends on factors such as the height of the dock, to the type of ship we are docked next to and the tidal levels of the river on the day.

RIVER LOCKS

Understand the science behind your river journey with our handy guide

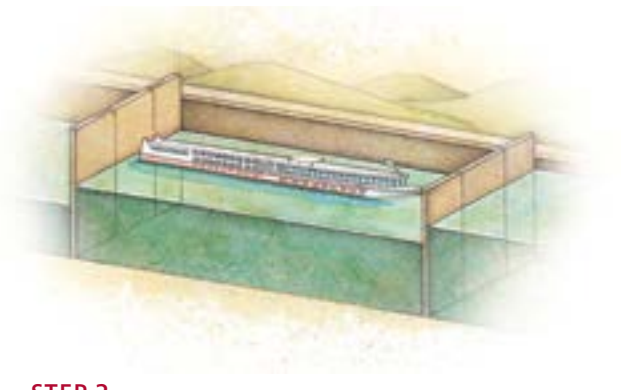

HOW DOES A LOCK WORK?

Locks are devices that raise and lower ships and other waterborne vessels between stretches of rivers and canals at different water levels. They are used to make a river more easily navigable, or to allow a canal to take a reasonably direct line across a landscape that is not level.

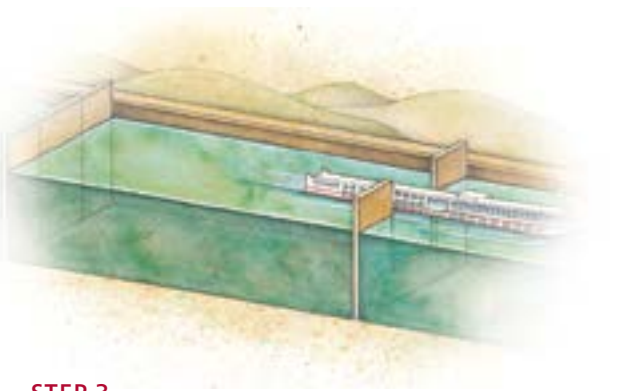

STEP 1

The ship approaches a lock. The first door opens and the ship enters the lock compartment.

STEP 2

The door closes behind the ship. The lock compartment is filled with water, raising the ship.

STEP 3

The far door opens and the ship departs at the new, higher level of the waterway. Alternate lock sections can be drained for incoming ships from higher levels.

EUROPEAN SEASON GUIDE

SPRING

With a colourful blanket of flowers washing over Europe's countryside, springtime becomes a feast for the senses

With thousands of wildflowers in bloom, spring is when Europe comes to life. To experience warm sunshine married with the vibrant colours of thousands of flowers blossoming, we recommend a trip to Holland or Belgium.

The city of Amsterdam is synonymous with tulips, and in spring, the city's surrounding landscapes are transformed into a sea of colour. Every year, from March until May, colourful blooms adorn the city's outdoor spaces; notable buildings are dressed in a variety of floral designs; and the soft scent of tulips fills the air of pedestrian walkways.

With more than seven million flowers in bloom at Keukenhof Gardens, including crocus, daffodils, hyacinths, and of course, tulips, it is a must-visit for the season.

Departures during spring tulip season complement your itinerary's regular highlights such as the windmills of Kinderdijk, traversing the scenic canals and bridges of Amsterdam or walking the old-world streets of Brussels with its cobblestone streets and squares.

EUROPEAN SEASON GUIDE

SUMMER

The enchanting cities of Europe become abuzz with activity in the summertime with warm days cooled by a slight breeze at night

To enjoy a quintessential European summer, set sail between June and August. With longer days and warm balmy nights, this season offers more time to explore. Temperatures tend to peak in August, so opt for June travel if hot weather doesn't agree with you as much.

During the European summertime, there are many wildflowers still in bloom. Most famous at this time of the year is the fragrant fields of lavender throughout Provence in France. Visit this region during its flowering season that spans from mid-June to mid-August, with the peak bloom usually occurring in July, to witness fields awash with the distinctive purple of lavender.

You can visit Coustellet and the Lavender Museum, founded by a family that runs a vast lavender farm in a nearby village. Dedicated to the beautiful flower's cultivation, distillation and legend, this unique museum features a fascinating collection of objects and exhibits that chronicle its use by perfume makers and by civilisations dating back to ancient Rome.

EUROPEAN SEASON GUIDE

AUTUMN

Enjoy cooler temperatures and autumnal hues as life in the cities begins to wind down. The grape harvest begins, and so a visit to the vineyards is a must

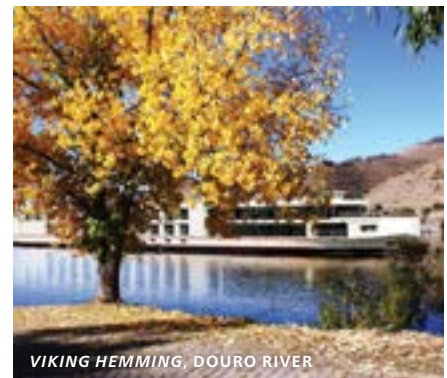

Between September and November, Europe falls into autumn. Expect to see hues of burnt orange and golden yellow throughout the cities while you enjoy lower temperatures and fewer crowds.

This season is known for its grape harvesting. Explore the south of France and discover charming ports, vineyards, farms and forests. Visit Bordeaux, the country's famed wine region, witness the harvest and taste local wines paired with French fare as you watch the autumnal sun set.

The grape harvest season is also one of the best times to visit the Douro Valley in Portugal, the world's oldest demarcated wine region where the weather is always warm.

Autumn in Europe is a time of vibrant festivals and cultural events. From Oktoberfest in Germany to the Chestnut Festival in Italy, there are countless opportunities to immerse yourself in local traditions and celebrations. Whether you're wandering through historic cities or enjoying the tranquility of the countryside, autumn in Europe offers an enchanting experience.
